Health Care Reform

AND IT'S IMPACT ON CASE MANAGERS

Health Care Reform and change is impacting the delivery, reimbursement and roles of health care providers. Case Managers are positioned to be the primary facilitators of coordinated care and safe transitions of care. Our first keynote speaker will address Health Care Reform—the Patient Protection and Affordable Care Act, Accountable Home, Medical Home, Medicare's 10th Scope of Work, the National Quality Forums 10 Care Coordination Performance Measures and much more! The focus will be on the role of the Case Management in care coordination and transition of care models. Our second keynote speaker will help Case Managers understand the importance of a "Shared Vision", using humor to reduce stress, stimulate creativity and strengthen teams.
