CASE MANAGERS: IN PERFECT HARMONY WITH HEALTH CARE EVOLUTION!

Happy and harmonious people are more energetic and perform more effectively and productively. Happier individuals collaborate better, are more accurate, healthy, and resilient. Individuals who are happy help make organizations stronger, achieve their goals, and more productive.

During this time of healthcare transitions and organizational restructuring you may be experiencing decreased energy and disharmony. Fine tuning your happiness will enhance your reserve to help your personal and professional image. Brad's high-energy, interactive, effective, and funny approach will show you how to increase and sustain your happiness quotient.

KEYNOTE SPEAKER

Brad Montgomery is a master presenter who teaches people how to use happiness to enhance quality, efficiency, productivity, creativity, and innovation. He turns typical presentations into transformational events using the power of happiness. Oh, and he's pretty funny!

He's transformed audiences in all 50 states and on four continents. His clients include Microsoft, Verizon, The FBI (yes, that FBI) the CIA (yes, that CIA) and the IRSs. Brad specializes in using humor, interactivity, sound, music and visuals to ignite audiences so that they can use happiness as a tool in their lives and their jobs. Other speakers TALK about happiness. But Brad SHOWS will show you how to harness the power of happiness in hands-on experiences that you will remember and implement. It's the difference between a "speech" and an "event."
