## *CMSA LI and Lindenhurst Community Outreach*

CMSA LI had the opportunity to promote the case management process and the different roles of case managers at the Lindenhurst Spring Festival. This Community Outreach Program is part of the Public Policy and Advocacy Committee initiative to reach out to the community in an effort to promote case management and advocate for community needs. Despite the blustery weather and spotty showers, people of diverse backgrounds visited the booth and the CMSA LI volunteers listened to their needs and were able to provide guidance as to what step to take next. The Outreach was well received and an invitation to CMSA LI to speak further about Case Management was extended by the Babylon American Legion Post 94, a national veterans' organization.
